

# Prepare For Your Vaccine

---

Get ready to schedule your COVID-19 vaccine!

It's official! ALL Vermonters ages 16+ will be eligible for their COVID-19 shots by April 19! The more people who get vaccinated, the faster our state gets back to normal—so mark you calendars.

Not eligible yet? Get a head start by familiarizing yourself with the sign-up process and creating your account now using the Health Department's online system, or a participating pharmacy like Walgreens and Kinney Drugs.

If you made an appointment for COVID-19 testing through a Health Department site, you can use the same account to book your vaccine appointment.

Visit [HealthVermont.gov/MyVaccine](https://HealthVermont.gov/MyVaccine) for detailed information on:

- The steps for setting up an account and making an appointment for yourself
- How to add dependents or a spouse to your account
- Other participating pharmacies
- Answers to commonly asked questions

**This is our shot, Vermont! And when the time comes, we hope you take yours!**
